Programming Languages : Javascript, C, Python
UI/UX Design Tools : Figma, Adobe Photoshop
Frontend : Javascript, HTML, CSS
Framework : React, Node.js
Editing Software : Premier pro, Capcut pc, Illustrator, Lightroom
Social Media Management

PROJECTS

ScanScore | HTML, CSS, Javascript, React, Gemini API, MongoDB, Express.js, Node.js
This innovative system utilizes AI technology to automatically descriptive exams, offering a modern alternative to the conventional evaluation approach. By implementing this solution, the time and rate of evaluation errors can be significantly reduced.
This project got 3rd place in the Yukthi hackathon.

Speaker-Recognition | Python, HTMLCSS, JavaScript
This project, part of IIIT Hyderabad's training program, focuses on speaker recognition through machine learning. The system can identify the speaker by analyzing their voice input. Currently, the project is in the development stage, with a functional machine learning model and a report webpage already set up.
